MADE BY SCIENCE TO WEAR WELL

"It looks as if the shoes with Neolin Soles I am using would last another six months. I have worn them two years," says Clarence J. Bloeker, of St. Louis, Missouri.

This is extraordinary wear even for Neolin Soles. But because they are made by Science to be especially tough and durable, all Neolin Soles wear a long time. And shoes soled with them are a real economy.

Buy Neolin-soled shoes for yourself and for the whole family. You can get them in many styles—at prices that are no higher than on shoes that give only ordinary wear. Have your old shoes re-bottomed with Neolin Soles, too.

These soles are noted for their comfort and waterproofness, also. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who make Wingfoot Hoes—guaranteed to outwear all other heels.

WORLD'S FIRST AIR PORT TO BE ATLANTIC CITY

NEW YORK, April 4.—The world's first "air port" is being established at Atlantic City, N. J. It was announced here today through joint action by the Aero Club of America, Aerial League of America, and Atlantic City Aero club.

Looking into the future, it is planned to create there a terminus for transatlantic land and seaplanes and dirigible balloons; to have aircraft registered under the rules of the department of commerce and receive clearance papers in the same way ships do; to provide airplane business and pleasure facilities for the estimated ten million persons who visit Atlantic City yearly; to provide an instruction school for the police of various cities which decide to create this branch of municipal protection, under the supervision of New York City's aerial police officials; and to establish facilities for research in medical and meteorological problems which deal with flying, with army and other government officials in charge.

Headquarters for aeronautic racing would be organized, it was stated, and the air station provided for the coast guard and life saving.

Colonel Robins Ignorant of True Russian Attitude

NEW YORK, April 4.—Asserting that Col. Raymond Robins, former head of the American Red Cross mission in Russia, employed a Bolshevik interpreter and a Bolshevik secretary, from whom he secured "all his information on Russian affairs," General A. N. Dobrjansky, former general of technical aid to the Russian minister of war declared in an address tonight that Col. Robins "knows nothing at all about the true state of Russian affairs under Lenin and Trotsky."

"America," he declared, "can save Russia and save the world from the terrors of Bolshevism by refusing to recognize the Bolshevik government. The Bolsheviks do not control more than ten per cent of the territory or population of Russia."

SALT LAKE CITY, Utah, April 4.—Japan does not desire to see the restrictions on immigration raised, according to Baron Shimppei Goto, former minister of foreign affairs, who addressed local Japanese at a banquet here tonight. Baron Goto said that the United States has a right to bar Japanese coolies and other orientals.

"There is no sentiment in Japan against the league of nations," Baron Goto said. "But our spokesman at the Paris conference only wishes to bring before the conference Japan's ambition for equality of races, as the spokesman of all oriental races."

A GREASY, PIMPLY SKIN COATED TONGUE and FOUL BREATH

Poisons in the blood, accumulated through the winter months should be promptly driven out by taking sulphur, cream of tartar and molasses, but it is so nauseating! Well then, just get a tube of Sulphur Tablets and they will do the work pleasantly. They are made of sulphur, cream of tartar and herbs—sugar-coated tablets. Stomach, liver, bowels and blood are all benefited by their occasional use. Greasy skin, pimples, coated tongue and foul breath tell you if your blood is bad. Mrs. B. Clarke, 905 Main street, Buffalo, writes: "I have been using your Sulphur Tablets and like them very, very much." Sold by all druggists. Don't accept ordinary "sulphur" tablets and be nauseated and disappointed.—Advertisement.

ONE OF AMERICA'S FIVE GREATEST PLAYS HERE

Considerable interest is being taken by a large number of Ogden people in the coming screen play, "Common Clay," which Manager Joseph Goss announces for the Orpheum with the opening date tomorrow night. Since the announcement that he had booked the screen version of the famous play, which has been characterized as one of America's five greatest plays, many Ogden people have personally expressed their appreciation of the opportunity that will be afforded them in seeing it.

It has been said that the screen version is even greater than the stage production in which Jane Cowl starred so long on Broadway. The play, with Miss Cowl in the stellar role, ran a full year in New York and played each night to packed houses. And while it was playing there its influence was so great, its story so compelling that it was heard of by other people in all parts of the country. This was the Harvard prize play by Cleves Kinkaid. The play, which is filled with tense
